PROFESSIONAL SUMMARY

Backend Java engineer with ~5 years of experience building payment and enterprise systems on Spring Boot and microservices. At Paysecure, integrated 20+ payment service providers (cards with 3DS, Google Pay, recurring/MIT, UPI Intent & QR, bank transfer, payouts and crypto) on a config-driven payment gateway processing live transactions, and cut PSP integration time from ~1 week to 1 day. Strong in REST API design, Kafka and MySQL/PostgreSQL.

SKILLS

Programming Languages: Java (Core Java, OOP, Collections, Multithreading, Java 8 Streams & Lambdas), SQL, JavaScript

Frameworks: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, Spring Cloud (Eureka, OpenFeign)

Payments: Card 3DS, Google Pay, Recurring/MIT & Tokenization, UPI Intent & QR, Payouts, Webhooks, Reconciliation, PCI-DSS compliance

Messaging: Apache Kafka, WebSocket, Redis

Databases: MySQL, PostgreSQL, MongoDB, JDBC Template

Tools & Cloud: Docker, AWS, CI/CD, Git, Maven, Jira, IntelliJ IDEA

Testing: Postman, API sandbox & end-to-end payment testing

Frontend: Angular, React (working knowledge)

EXPERIENCE

Paysecure — Software Engineer (Payments)

Mar 2024 – Present | Jaipur

- **Owned end-to-end integration of 20+ payment service providers** (Adyen, PXP, Noon Payments, PayPal, Cashfree, Bitso and more), from API analysis and flow design to sandbox testing, staging rollout and post-live fixes, covering card 3DS, Google Pay, UPI Intent & QR, bank transfer, payouts and crypto payment flows.
- Built a **recurring payment (MIT) flow**: mandate enrolment, card token vaulting and merchant-initiated charges; found and fixed a request-signing defect that caused HMAC authentication failures on recurring transactions.
- Designed webhook processing, transaction status inquiry and reconciliation flows, **reducing failed transactions by 15%**.
- Implemented PSP authentication and signing schemes including **HMAC-SHA256, RS256 JWT** and OAuth token flows.
- Built an **AI-assisted integration pipeline** (API-doc extraction, config generation, automated validation) that **cut new PSP integration time from ~1 week to 1 day**.
- Debugged and resolved payment defects (status mapping errors, webhook amount mismatches, signature failures) through log analysis and root-cause analysis, tracked via Jira.
- Conducted **code reviews** for peers' PSP integrations and gateway changes to maintain code quality and catch defects before release.
- Developed CSV export/import of gateway transformation configs in a Spring Boot microservice admin module with role-based access.

DRC Systems — Associate Java Developer

Oct 2022 – Mar 2024 | Gandhinagar

- Developed the backend of **TruFlux**, a Jira-style agile project management platform (Spring Boot + React) for issue tracking, task prioritization, custom workflows and reporting.
- Built a **real-time notification system** using Kafka and WebSocket, providing instant, fault-tolerant updates to users.
- Designed and secured REST APIs with Spring Security and JWT; built business logic with Spring Data JPA and Hibernate.
- Automated Excel report generation using Apache POI.

Logilite Technologies LLP — Software Engineer (Java)

Nov 2021 – Oct 2022 | Ahmedabad

- Developed and customized business modules on the **iDempiere ERP** (Java) platform, handling requirement analysis, development and testing of client deliverables.

PAYMENT INTEGRATIONS

Cards & 3DS: Adyen, PXP Financial, YoyaPay, Wema (Mastercard MPGS), Paystrax & NomuPay (ACI OPPWA)

Wallets: Google Pay (Noon Payments, Paystrax), PayPal Checkout v2, Braintree, Venmo

Local Payment Methods: UPI Intent, UPI QR & IMPS (VertexLayer), Interac (PayAdmit), Multibanco (Trust Payments), SafetyPay (LATAM), Tonder (Mexico), Cashfree, Easebuzz

Payouts & Bank Transfer: LigoPay (Peru CCE bank / alias transfers), VertexLayer IMPS payouts

Crypto: Approvely (Coinflow), Bitpace, Bitso, MeshConnect

EDUCATION

B.Tech, Computer Science & Engineering (Lateral Entry)

2017 – 2020

Guru Jambheshwar University of Science & Technology (GJUS&T), Hisar

Diploma, Electronics & Communication Engineering (ECE)

2014 – 2017

Government Polytechnic, Manesar, Gurugram (HSBTE)
